

# ADVERSE SUMMER WEATHER (ASW)

## Course Description

In aviation adverse weather conditions are mostly found below cruising altitude. Adverse Summer Weather (ASW) explain the causes and operational implication of summer weather phenomena on flight operations.

EL-hub's course on ASW will train pilots to ensure a practical knowledge to recall specific weather hazards and techniques to avoid/minimize these during flight; and the use of various warning system.

## Target Audience

Flight crew

## Course Content

1. Introduction to Adverse Weather
2. Summer Weather Phenomena
3. Flight Operations Hazard
4. Weather Warning Systems
5. Module Summary
6. Assessment

**Course Duration:** 2 Hours 30 Minutes

**Training Type:** Initial

## QUICK FACTS

- Self-paced, visually rich, and engaging eLearning course
- Runs on iPad, Laptops and PC's
- Available in Initial versions
- Topics can be selected for Recurrent training
- Final Test and Certification offered
- Customization available as per airline specific and regulatory requirements.

**Peak Pacific**, a global leader in aviation training, in partnership with **Finnair Flight Academy**, a trusted training partner for economical operations and an EASA approved ATO organization, offers a wide range of high quality aviation content library. Our instructors and learning consultants have extensive operational experience in aviation training and eLearning.
