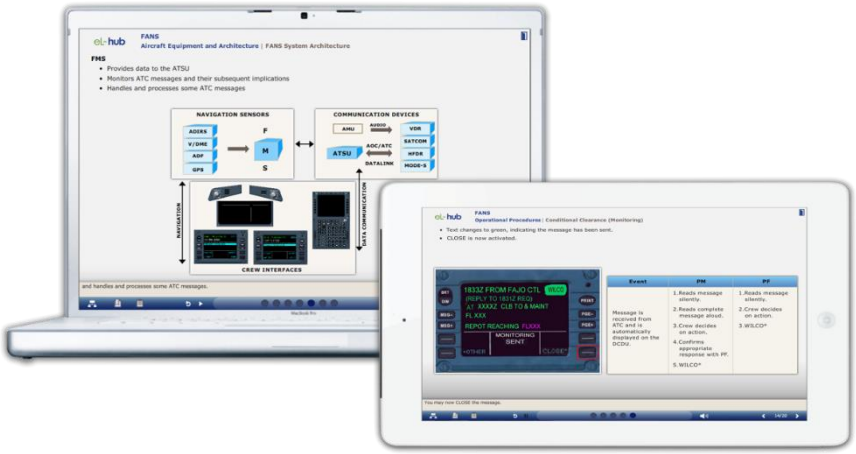
# FUTURE AIR NAVIGATION SYSTEM (FANS)
## Airbus

### Course Description

Future Air Navigation System, or FANS, allows more aircrafts to safely and efficiently utilize a given volume of airspace.

eL-hub's course on FANS familiarises pilots with the key elements of FANS by helping them in identifying FANS aircraft architecture, recalling FANS operating procedures and explaining various FANS contingencies.



### Target Audience

Flight crew

### Course Content

1. Module Introduction
2. Elements of FANS
3. Aircraft Equipment and Architecture
4. Operational Procedures
5. Failure and Contingencies
6. Module Summary

### QUICK FACTS

- Self-paced, visually rich, and engaging eLearning course
- Runs on Laptops and PC's
- Available in Initial versions
- Topics can be selected for Recurrent training
- Final Test and Certification offered
- Customization available as per airline specific and regulatory requirements.

**Course Duration:** 1 Hour

**Training Type:** Initial

**Peak Pacific**, a global leader in aviation training, in partnership with **Finnair Flight Academy**, a trusted training partner for economical operations and an EASA approved ATO organization, offers a wide range of high quality aviation content library. Our instructors and learning consultants have extensive operational experience in aviation training and eLearning.
