

FUTURE AIR NAVIGATION SYSTEM (FANS) BOEING

Course Description

Future Air Navigation System, or FANS, allows more aircrafts to safely and efficiently utilize a given volume of airspace.

eL-hub's course on FANS familiarises pilots with the key elements of FANS by helping them in identifying FANS aircraft architecture, recalling FANS operating procedures and explaining various FANS contingencies.

Target Audience

Flight crew

Course Content

1. Module Introduction
2. Elements of FANS
3. Aircraft Equipment and Architecture
4. Operational Procedures
5. ADS / Emergency
6. Module Summary

Course Duration: 1 Hours

Training Type: Initial

QUICK FACTS

- Self-paced, visually rich, and engaging eLearning course
- Runs on iPad, Laptops and PC's
- Available in Initial versions
- Topics can be selected for Recurrent training
- Final Test and Certification offered
- Customization available as per airline specific and regulatory requirements.

Peak Pacific, a global leader in aviation training, in partnership with **Finnair Flight Academy**, a trusted training partner for economical operations and an EASA approved ATO organization, offers a wide range of high quality aviation content library. Our instructors and learning consultants have extensive operational experience in aviation training and eLearning.
