

This is to confirm that the

“ETOPS Maintenance Training v04“

provided by infoWERK Medien & Technik GmbH, setup on the LMS Training Portal provides detailed information of current EASA regulations, Part 66 Appendix 1, Module 10.7 (b), ETOPS, maintenance and dispatch requirements. In addition industry best practice examples were used to demonstrate the CAMO's duties and responsibilities as well as necessary interactions with maintenance and operations departments

The following theoretical training topics are included:

- ETOPS Definition, purpose and benefits
- ETOPS regulations
- To obtain an ETOPS approval
- Maximum approved diversion times and time limited system capability
- ETOPS Maintenance Program
 - o CAMO
 - o CAME
 - o Reliability program
 - o APU inflight start program
 - o Oil consumption program
 - o Engine Condition Monitoring
 - o ETOPS Downgrading
 - o Verification program / flights
 - o ETOPS Parts control
 - o Rules for maintenance planning
 - o Dual Error prevention
 - o Interface between Part-145 AMO and CAMO
- ETOPS Training Program

All requirements and updates are documented in infoWERK's internal Quality Management System.
