

This is to confirm that the

“ETOPS Training v04“

provided by infoWERK Medien & Technik GmbH, setup on the LMS Training Portal is in compliance with:

AMC/GM TO ANNEX V (PART-SPA) GM1 SPA.ETOPS.105 ETOPS operational approval / Annex II AMC 20.6

The following theoretical training topics are included:

- Overview and history of ETOPS;
- ETOPS regulations;
- Definitions;
- Approved One-Engine-Inoperative Cruise Speed;
- ETOPS Type Design Approval – a brief synopsis;
- Maximum approved diversion times and time-limited systems capability;
- ETOPS Operations Approval;
- ETOPS en-route alternates aerodromes including all available let-down aids;
- Navigation systems accuracy, limitations and operating procedures;
- In-flight monitoring procedures;
- Equal Time Point;
- Critical fuel.

The following topics are operator specific and therefore not included. They however, can be added to the training program if required:

- Operator's Approved Diversion Time;
- Routes and aerodromes intended to be used in the ETOPS area of operations;
- ETOPS Area and Routes;
- Meteorological facilities and availability of information;
- Computerised Flight Plan;
- Orientation charts, including low level planning charts and flight progress charts usage (including position plotting);

All requirements and updates are documented in infoWERK's internal Quality Management System.
