

This is to confirm that the

“Terrain Awareness Warning System (TAWS) v01“

provided by infoWERK Medien & Technik GmbH, setup on the LMS Training Portal is in compliance with:

GM1 CAT.OP.MPA.290 Ground proximity detection

After completing the course, the pilot will be able to demonstrate an understanding of TAWS operation and the criteria used for issuing cautions and warnings.

The following theoretical training topics are included:

- Introduction to TAWS
- Surveillance
- Terrain Avoidance
- Alert Thresholds
- TAWS Limitations
- TAWS Inhibits
- Operating Procedures

The TAWS training will be completed through a test at the end of the course.

All requirements and updates are documented in infoWERK's internal Quality Management System.
